OUR QUALITY

An organisation can please and satisfy clients only by having a hold over superior quality. We here in SLOTKING INDIA PRODUCTS, see to it that stringent quality control programs are operated to match the expectations of clients from different industries. Our quality control experts implement strict scrutiny at each level of production, which starts right from procuring pf raw materials and continues till the shipment of final products.

The raw material is procured by us from authenticated vendors of the market. To ensure the zero defect quality of our storage systems, our products undergo strict tests on the basis of following parameters:

- DIMENSION
- COATING
- SHARP EDGES
- UNIFORM FINISHING
- LOAD BEARING CAPACITY
- STRENGTH & DURABILITY

OUR MANUFACTURING FACILITY

We are supported by an in-house, refined manufacturing unit, which stretches over an area of about 1000 sq. ft. The area is well organized with latest equipments that let us manufacture customer specific designs. Some of these are:

- » Power press
- » Steel cutter
- » Punching machine
- » Banding machine
- » Lathe machine and many more

Moreover, we give special attention to the maintenance of our machinery to keep them in excellent working condition, so that the bulk orders can be delivered to our clients without any justification or delay.

OUR PRODUCT FEATURES

The prominent features that provide our products an edge over others are enlisted below:

- » Robust and stylish design
- » Optimum space / Highly space saving
- » Superior finishing
- » Resistant to corrosion
- » Trouble-free installation
- » Low Maintenance
- » Flexible applications
- » High safety levels
